

## WELCOME TO THE WORLD OF ADVANCED AESTHETICS

### ANTI-WRINKLE INJECTIONS

More commonly known as BOTOX, anti-wrinkle injections are used to smooth out fine lines and wrinkles for a younger rejuvenated look. Areas commonly treated include frown lines, worry lines and crows feet. These injections comprise of a naturally occurring protein botulinum toxin. This protein blocks transmission of chemical messages from the nerve which cause muscle contractions preventing lines forming. Results can be seen after 3-4 days and last between 8 and 12 weeks.

### DERMAL FILLERS

These are a multi-functioning treatment that can be used to reduce deep lines, wrinkles, smooth contours and fill hollows. The majority of dermal fillers are made with Hyaluronic acid which is the naturally occurring sugar in our skin which provides volume and supports collagen and elastin fibres. Results tend to be immediate and last anywhere between 6 and 18 months depending on the product used and site of action.

### PCA PERFECTING PEEL

This specific peel is designed for maturing skin. This AHA and Antioxidant peel improves the surface texture of the skin, helping with fine lines and wrinkles with an additional bonus of promoting a bright, even skin tone. The peel consists of 20% Mandelic Acid, 10% Lactic Acid and antioxidants. The 6% Retinol Peel will give you a dramatic and quick rejuvenation of your skin resulting in a visibly smoother and brighter appearance. The peel also contains antioxidants to give your skin extra protection. This treatment is ideal to support those who have had anti-wrinkle injections or those who want anti-wrinkle treatments without the need for injections, and can help with pigment disorders, acne sufferers and damaged skin from sun or smoking.

### MEDI-FACIAL

PCA Oxygenating trio facial consists of enzymes and antioxidants and is a three-step system designed to stimulate oxygenation and circulation within the skin plus revitalising damaged skin to reveal a more plumper, natural glow and reduce fine lines and wrinkles.
